UK KAL-MAG PLUS D

Calcium and Magnesium with Vitamin D₃

Food supplements

KAL-MAG PLUS D is a food supplement of calcium, magnesium and vitamin D₃ and is useful in case of insufficient dietary intake or increased requirements of these nutrients. Calcium is needed for the maintenance of bones and teeth and contributes to normal neurotransmission and muscle function, energy yielding metabolism and the function of digestive enzymes. Magnesium also supports the maintenance of bones and teeth, while Vitamin D contributes to the normal absorption and utilization of calcium and to the maintenance of a normal immune system.

Ingredients: calcium carbonate, magnesium hydroxide, bulking agent: microcrystalline cellulose; stabilizer: cross-linked sodium carboxy methyl cellulose; anti-caking agents: fatty acids, calcium salts of fatty acids, silicon dioxide; vitamin D₃ (cholecalciferol).

Recommended daily intake: 3 tablets per day.

Do not exceed the stated recommended daily dose.

Store in a cool dry place out of reach of young children.

Food supplements should not be used as a substitute for a varied and balanced diet and a healthy lifestyle.

Lot Number & best before end: See on the packaging.
